

• FOR IMMEDIATE RELEASE

San Francisco, CA Next Stop on Laboratory Information Management System (LIMS) Seminar Tour!

West End, North Carolina, August 9th, 2007: Accelerated Technology Laboratories, Inc.

Accelerated Technology Laboratories, Inc. (ATL) and Microsoft are pleased to announce San Francisco, CA as the next stop on their Laboratory Information Management System (LIMS) Seminar Tour. This no cost, educational seminar focuses on the growing importance of Laboratory Information Management Systems (LIMS).

The seminar is a lunch event that will explore the current challenges that are faced in the modern laboratory and demonstrate how organizations are automating operations to increase productivity and data quality while reducing operational costs. This seminar is ideal for Laboratory Operations or QA/QC Managers in the following industries: water/wastewater, environmental (air/water/soil), agriculture, chemical, food & beverage, life sciences and government (public health).

Attendees will learn:

- The considerations in the selection of a LIMS to streamline laboratory operations, improve data quality, eliminate mundane tasks and maintain regulatory compliance. These include:
 - Streamlining sample login utilizing bar-coded labels.
 - Automatically e-mailing updates based on user configured QC limits.
 - Directly importing data from instruments, thus reducing transcription errors that result from manual re-entry of data.
 - Automating reporting via fax, email or printing (final analysis reports, certificates of analysis, production, backlog reports, etc.)
- An understanding of the pros/cons of integration with enterprise systems (Financial/Accounting, ERP).
- How to increase communication across the organization with automated processes to achieve increased product quality, regulatory compliance and shorter turnaround times.
- How laboratory automation solutions can improve market effectiveness.

The seminar is hosted by Microsoft, a leading provider of laboratory database software (MS SQL Server) and Accelerated Technology Laboratories, Inc., a market leader in the LIMS space with their Sample Master[®] flagship solution. ATL is a Microsoft Gold Certified Partner and has developed Sample Master[®] to be tightly integrated with the Microsoft Office platform and the Microsoft Server System including MS SQL Server.

Don't miss out on the opportunity to meet others in your industry and learn how to achieve measurable improvements via LIMS for your laboratory operation.

A complimentary lunch will be provided. ***Please register today, as seating is limited!!***

DATE: Wednesday, September 5th, 2007
TIME: 11:30AM – 1:00PM
LOCATION: Microsoft – San Francisco
One Market Street, The Landmark – Suite 200
San Francisco, CA 94105
