Seattle Area Announced as the First Stop of the 2008 Laboratory Information Management System (LIMS) Seminar Tour!

West End, North Carolina, January 3rd, 2008: Accelerated Technology Laboratories, Inc.

Accelerated Technology Laboratories, Inc. (ATL) and Microsoft are pleased to announce that on Wednesday, February 13th, 2008 they will be hosting a free, educational seminar which focuses on why a Laboratory Information Management System (LIMS) is the key to streamlining laboratory operations and staying compliant. The event will take place at the Microsoft facility in Bellevue, Washington located just outside of Seattle.

The seminar is a lunch event that will explore the current challenges that are faced in the modern laboratory and demonstrate how organizations are automating operations to increase productivity and data quality while reducing operational costs. This seminar is ideal for Laboratory Operations or QA/QC Managers in the following industries: water/wastewater, environmental (air/water/soil), agriculture, chemical, food & beverage, life sciences and government (public health). **Lunch will be provided. Please register today, as seating is limited!**

Attendees will learn:

- The considerations in the selection of a LIMS to streamline laboratory operations, improve data quality, eliminate mundane tasks and maintain regulatory compliance. These include:
 - Streamlining sample login utilizing bar code technology
 - Automatically send email alerts based on user-configured QC limits
 - LIMS integration with instruments to eliminate data transcription errors
 - Automated reporting via fax, email or printing (final analysis reports, Certificate of Analysis, backlog reports, etc.)
- Get an update on the latest advances in mobile technology that allows field personnel to capture sample data and easily synchronize with the LIMS.
- An understanding of the growing importance of integration with enterprise systems (Financial/Accounting, ERP).
- See examples of how organizations are using their LIMS to automate processes and improve product quality, turnaround times and regulatory compliance metrics.
- Learn how laboratory automation solutions can help your organization thrive in a competitive market.

The seminar is hosted by Microsoft, a leading provider of laboratory database software (MS SQL Server) and Accelerated Technology Laboratories, Inc., a market leader in the LIMS space with their Sample Master[®] flagship solution. ATL is a Microsoft Gold Certified Partner and has developed Sample Master[®] to be tightly integrated with the Microsoft Office platform and the Microsoft Server System including MS SQL Server.

Don't miss out on the opportunity to meet others in your industry and learn how to achieve measurable improvements via LIMS for your laboratory operation!

DATE: Wednesday, February 13th, 2008
TIME: 11:30AM – 1:00PM
LOCATION: Microsoft – Bellevue WA
Civica Office Building
205 108th Ave NE, Suite 400
Bellevue, WA 98004
